A HISTORY OF CARING

Hugh Chatham Memorial Hospital has served the Greater Elkin area for more than 80 years. For the past decade, the hospital has grown into a regional healthcare network of physicians and affiliated practices serving the residents of the Yadkin Valley and beyond.

Our goal is to place our patients’ care above all, and to provide seamless, collaborative service that leads to the best possible outcomes.

With almost 700 employees, HCMH is one of the largest employers in Surry County. The efforts of our physicians, nurses and staff have led to numerous awards and to national recognition as one of the nation’s best community hospitals.

From the Chief Executive Officer

Dear Friends,

Hugh Chatham Memorial Hospital has a reputation for excellence, and our achievements over the past year have raised the bar even higher. I am proud to work with the professionals, staff and volunteers whose combined talent creates such a special experience for our patients. Thanks to them, Hugh Chatham is ranked among top hospitals nationwide for quality by The Joint Commission, and is recognized as one of the nation’s “Most Wired” hospitals, reflecting our focus on improving care with the latest technology. We are also a leader in patient satisfaction, celebrating our second consecutive Women’s Choice award last year as a Top 100 U.S. Hospital.

In the following pages, you will read about some of the very best care available, including new services dedicated to your good health. We continue to enhance our patient-centered approach by launching a nurse advice line, 336-527-CARE, and by opening new Express Care and Urgent Care clinics to improve convenient access to affordable care, including on evenings and weekends.

And we are bringing specialty care closer to home. In 2014, Hugh Chatham welcomed new physicians in specialties such as behavioral health, pulmonary and critical care medicine, orthopedics and sports medicine, neurology and podiatry. These skilled and compassionate professionals provide excellent, personalized care to the Yadkin Valley and beyond.

Last, and certainly not least, community support will remain vital as we endeavor to serve you and your loved ones. Whether through volunteering, philanthropy, or by ensuring we understand your needs, you are an important part of the Hugh Chatham healthcare family, and together we are making the Yadkin Valley a better place to live. I am grateful for your trust, and thank you for making a difference.

Sincerely,
Paul Hammes, Chief Executive Officer

Go to the Hugh Chatham Memorial Hospital Facebook page and click “Like.”

Join over 1,400 people who use our Facebook page to stay informed about news and events happening at HCMH, and throughout the hospital community. Users are encouraged to share comments about their care experiences, and leave reviews of the care they received.
Awards & Accolades

Hugh Chatham Memorial Hospital has received several prestigious certifications, awards and rankings. This recognition is the direct result of the hard work and dedication of our doctors, nurses and staff.

HCMH Ranked 1st in North Carolina

HCMH ranked first among all acute-care hospitals for the quality of our patient care, including:

• Clinical Process of Care
• Patient Experience
• Patient Outcomes

*Based on hospital total performance scores under Medicare’s fiscal year 2014 Value-Based Purchasing program, according to Hospital Compare data from www.medicare.gov.

Voted BEST By Women...Three Years in a Row

HCMH has received the 2015 Women’s Choice Award as one of America’s Best Hospitals in Obstetrics, and for being ranked as one of America’s 100 Best Hospitals in Patient Experience.

Of the award winning hospitals in North Carolina, HCMH ranks as the best full-service hospital voted by women.

The Best Stroke Care

The American Heart Association and American Stroke Association recognized HCMH for achieving at least 24 consecutive months of 85% or higher adherence to all Get With The Guidelines® Stroke Performance Achievement indicators.

Certified Cancer Care

The Radiation Oncology Department at HCMH has been awarded a three-year term of accreditation from the American College of Radiology (ACR) based on achieving consistency in delivering high quality, safe care. Radiation Oncology is the practice of using high-energy radiation to treat cancer.

Joint Commission Top Performer

HCMH has been recognized as a Joint Commission Top Performer on Key Quality Measures for achieving excellence in performance on its accountability measures for Pneumonia and Surgical Care.
Hugh Chatham Memorial Hospital is more than just a hospital. We are a comprehensive healthcare network of doctors, nurses and affiliated practices of specialty and family physicians whose highest priority is the health and well-being of everyone in the Greater Yadkin Valley Region.

Joseph Zastrow, MD
Medical director, Hugh Chatham Urgent Care
The Care You Need, When You Need It

Making healthcare more accessible and affordable – that is the power of Hugh Chatham Express Care in Elkin and Hugh Chatham Urgent Care in Jonesville.

With extended day and weekend hours, and no appointment necessary, patients can be seen for minor medical issues, such as:

- Common illnesses, including as colds, flu, earaches, sore throats, migraines, low-grade fevers and rashes.
- Minor injuries from falls or sports activities.
- Minor cuts and burns.

If a patient needs specialized care, they can be referred to a Hugh Chatham specialist.

Hugh Chatham Express Care began seeing patients in August of 2014. During the ribbon cutting, Express/Urgent Care medical director, Dr. Joseph Zastrow, and hospital board chair Bob Midkiff, cut the ceremonial ribbon.
## New Faces

We are honored to have such a high caliber of qualified professionals on our staff, and we continue to add more as our areas of care grow.

Hugh Chatham continues to add more Family Care affiliated practices in the Yadkin Valley. We expanded by opening two new clinics in Wilkes County, which brings our total there to three. Hugh Chatham Family Medicine – Mountain View and Boomer join Clingman Medical Center in Wilkes.

In another move, Hugh Chatham Family Medicine – Elkin relocated to 600 Chatham Medical Park. The practice is overseen by Dr. Stephen Erlandson and Dr. Darryl Rhyne.

The Hugh Chatham Healthcare Network now includes six family medicine practices with 15 physicians, physician assistants and nurse practitioners, plus nursing and administration.
One of the Emergency Department trauma rooms.

A patient transport helicopter lands on the Norman Helipad located close to the E.D. entrance.

Emergency Department/ICU

For many, the E.D. is the first time they have ever been to the hospital, so all measures are taken to make visitors and patients comfortable and safe.

From the convenience of the parking deck to state-of-the-art technology, HCMH stands ready to quickly serve the emergency medical and surgical needs of families in our region. Specialists are on-call and ready to offer care as they are needed.

Hugh Chatham’s Emergency Department features 24 spacious rooms, including specially equipped trauma rooms, cardiac rooms and general care rooms to accommodate emergency services.

Features include:

• A comfortable and efficient walk-in entrance with a large waiting area.
• A spacious ambulance bay that allows EMT professionals from two vehicles simultaneously.
• A convenient and private passageway to the Radiology Department.
• Four trauma bays with state-of-the-art monitors, “crash carts,” oxygen and more.
• Four specially designed cardiac rooms with the latest EKG monitors and other equipment.
• The capability to quickly convert the entire Emergency Department to “isolation status.”
• An 8-bed Intensive Care Unit featuring bright and spacious rooms, state-of-the-art equipment and specially trained personnel to care for critically ill patients.
The Regional Cancer Center

Hugh Chatham Memorial Hospital provides competent, compassionate, innovative radiation therapy and chemotherapy services to cancer patients.

The reach of these services now expands to the citizens of the following counties:

- Alleghany
- Carroll
- Grayson
- Patrick
- Surry
- Wilkes
- Yadkin

At the beginning of 2014, the Radiation Oncology Department earned accreditation from the American College of Radiology. The accreditation process, designed to promote quality and continuing education to maintain high levels of quality and safety, includes an on-site survey performed by board certified radiation oncologists and board certified medical physicists.

Cancer Outreach Support Services

Mastectomy Program

HCMH continues to offer complete mastectomy treatment and services. Recommended mastectomy fitters go to the patient’s home after surgery for a prosthesis fitting. In the meantime, a “softie” and pillow are provided for the patient’s comfort during the recovery period.

Look Good...Feel Better

This free national public service program helps women undergoing cancer treatment learn to cope with their appearance or related side effects of treatment. The program emphasizes regaining self-confidence and control over their lives. A licensed cosmetologist volunteer teaches women how to enhance their appearance using makeup techniques. Sessions and materials are provided at no charge.

Oncology Services

- Chemotherapy/biotherapy
- Treatment of chemotherapy side effects
- Phlebotomies
- Genetic testing
- Bone marrow biopsies
- On-site lab testing
- Access to clinical trials
- Peripheral blood smear interpretation
- Home health and hospice referrals
- Consultation for inpatient and follow-up care

Dr. Gregory Fiets is a Board Certified Radiation Oncologist who oversees the Radiation Oncology department.
The Primary Stroke Center

The Primary Stroke Center at HCMH is designed to provide the highest-quality stroke evaluation and care. Our dedication to achieving and maintaining top-notch outcomes has earned the Primary Stroke Center the Joint Commission’s Gold Seal of Approval.

To achieve this certification, the center had to develop and implement a standardized method of delivering care. This method includes:

• Supporting a patient’s self-management activities.
• Tailoring treatment and intervention to an individual’s needs.
• Analyzing and using standardized performance measurement data to continually improve treatment plans.
• Demonstrating the application of, and compliance with, the clinical practice guidelines of the American Heart Association and the American Stroke Association.

Stroke Outreach & Education

When someone has a stroke, getting to medical treatment quickly is crucial to preserving brain function. Through seminars, ads and brochures, informing the community about F.A.S.T. and recognizing the symptoms of stroke remains a priority.

The opening of Hugh Chatham Neurology in 2014, further established HCMH as a regional destination for neurologic and stroke care, as well as care for diagnosing and treating headaches, Alzheimer’s Disease and Parkinson’s Disease, among others. Dr. Steven Meadows oversees the practice as the group’s medical director, and he is assisted by William Jarrett, PA-C.
Behavioral Health Practice Opens

With the opening of Hugh Chatham Behavioral Health, HCMH is now fully capable of helping address mental health issues that face many people throughout our community. Headed by Dr. Lee Bourgeois, the practice offers evaluation, diagnosis and treatment for the behavioral health needs of adults aged 18 and older.

Dr. Bourgeois completed his Psychiatry Residency at Wake Forest Baptist Medical Center in Winston-Salem, where he served as Chief Resident. He is board certified by the American Board of Psychiatry & Neurology.

Behavioral Health Services

• Comprehensive patient evaluations for accurate diagnosis and treatment.
• Counseling and education.
• Management of behavioral health issues, including medication management.
• Personalized treatment plans.

A Few Words About Mental Health

As a Psychiatrist, Dr. Bourgeois is a physician who specializes in the diagnosis, treatment, and prevention of behavioral health and emotional problems.

Because of his extensive medical training, he understands the body’s functions and the complex relationship between emotional illness and other medical illness.

Like other illnesses and diseases, behavioral health issues range from severe and life-threatening disorders to relatively mild and self-limiting conditions.

Approximately 2.8% of the adult population suffers from severe behavioral health issues, such as schizophrenia or bipolar disorder, or from more common, yet disabling, anxiety and depressive disorders or from substance abuse.
Women’s Services

As the preferred birthing center for the Yadkin Valley Region, HCMH works to ensure that each mother, partner, family member and newborn infant feel welcome and secure.

The BirthPlace

It is the goal of the BirthPlace staff to provide a patient- and family-friendly environment that is quiet and safe. We recognize the physical, mental and spiritual needs that make up a total person, and we are happy to share in this journey.

- Free childbirth and child care classes
- Free car seat safety inspection
- Free celebration dinner for moms and dads
- Hearing screening on all babies
- Babies may remain in mom’s room during the entire process.
- Free lactation consultation and breast-feeding support
- Free telephone consultations 24/7/365
- Single-occupancy rooms with TV
- Continuous mother-baby care
- The latest fetal monitoring equipment
- Free well-baby follow-up within 72 hours of discharge
- Ultrasound
- Nursery available for babies needing special care
- Hospital gift shop includes a selection of flowers and gifts for the mother and baby

Gynecology

Our gynecology specialists and their clinical and office staff are committed to excellence in gynecologic care. With patient comfort and convenience as starting points, our OB-GYN specialists explain options well, and provide the information women need to choose what is best for their care – at every stage of life.
Physician Focus: The Scope

Do You Have Your Copy?

HCMH publishes a comprehensive guide of doctors, mid-level practitioners and hospital resources called *The Scope*.

Your free copy is available in the Hospital Lobby, and other locations throughout the Yadkin Valley. An updated Scope for 2015-2016 will be released soon.

Tri-County Orthopedic & Sports Medicine

Tri-County has been serving residents of the Yadkin Valley for over 20 years. Their surgeons have over 70 years of combined experience in orthopedic care, and they specialize in surgical and nonsurgical means to treat the following:

- Musculoskeletal Trauma
- Sports Injuries
- Degenerative Diseases
- Infections
- Tumors
- Congenital Disorders

Dr. Marc Stevens joined the practice as a surgeon in 2014, and Dr. Jack Whitaker is joining the practice in the summer of 2015. At present, the practice sees patients in four locations: Elkin, Mount Airy, Sparta and Jonesville. More offices are being considered, so more patients can have access to the exemplary care this practice provides.

Care Line Opens Access To Patients

When someone needs non-emergency healthcare, it does not always occur during regular office hours. With Hugh Chatham’s 527-CARE Nurse Care Line, anyone can call anytime and speak to highly trained nurses who can advise callers on the best course of action to take.

Care Line nurses can schedule appointments to any one of Hugh Chatham’s primary care or specialty practices. This helps to streamline the process of getting people to see the right physician at the right time.
Parkwood Place

Parkwood Place is a thriving independent living retirement community that is owned and managed by HCMH. Amenities and services are designed to give residents a safe, comfortable living environment that is also affordable.

Through events, such as the Parkwood Concert Series, an increase in advertising, and the creation of a Facebook page have all led to an increase in people looking to live here.

For more information about Parkwood Place, contact Randy Combs by calling 336-526-6000.

Lonnie Carpenter, a native of Rowan County, is one of our area’s great song stylists. Lonnie will take you back to the cool, swinging, and romantic days of the 40s, 50s and 60s. If you like Frank Sinatra, Dean Martin, Bobby Darin and Michael Buble, you will love this exciting one-man show!

The 22nd Annual Hugh Chatham Memorial Hospital Foundation Golf Classic was held August at Cedarbrook Country Club in Elkin.

The golf classic is vital to the Foundation’s fund-raising efforts, and the tournament provides needed financial support for its efforts in funding a variety of community health care needs. Special thanks goes to the many volunteers who make this tournament one of the most successful in our region, and to Cedarbrook Country Club’s excellent staff for their work in ensuring an exquisitely groomed golf course and accommodating club house.

The 14th annual Yadkin Valley Wine Auction was held in May with proceeds from the event going to support the Hugh Chatham Memorial Hospital Foundation.

The event was held in downtown Elkin at the Liberty and raised more than $45,000.

Event attendees had the opportunity to bid on a variety of donated items, including art, jewelry, and, of course, wine from some of the Yadkin Valley’s finest vineyards.

Special thanks to our Hospital Foundation for hosting the event and to the many volunteers who helped make this incredible event a huge success.
Hugh Chatham Memorial Hospital is more than just a hospital. We are a comprehensive healthcare network of over 700 doctors, nurses and staff.
