

PATIENT RESOURCE GUIDE

WHAT'S HAPPENING TO MEDICAID IN NORTH CAROLINA?

North Carolina's Medicaid program is changing to Medicaid Managed Care on July 1, 2021. This means that most Medicaid beneficiaries will receive their benefits through health plans (PHPs) for the first time instead of directly from the state. A health plan provides a network of doctors, hospitals, and other providers who work together to provide the care you need.

HOW DO I KNOW IF I NEED TO SELECT A HEALTH PLAN?

Most people in N.C. Medicaid and N.C. Health Choice must choose a new Medicaid health plan. Some patients will not need to choose a new health plan, because of the specific services they need. Those who must enroll in a new health plan should have received enrollment information in the mail after March 1, 2021. If you or the patient is eligible, you had an opportunity to choose a plan between March 15 – May 21, 2021, as well as a chance to select a primary care provider (PCP) to help you coordinate your healthcare needs. If you did not select a plan by May 21, you were likely automatically enrolled in a new health plan.

If you did not receive enrollment information in the mail and have questions about eligibility, visit Do I Need to Choose a Health Plan or www.ncmedicaidplans.gov.

WHAT ARE THE NEW MEDICAID HEALTH PLANS AND WHAT SERVICES DO THEY OFFER?

The state is contracted with the following health plans:

- ▶ AmeriHealth Caritas of North Carolina
- ▶ Blue Cross and Blue Shield of North Carolina
- ▶ Carolina Complete Health, Inc.
- ▶ UnitedHealthcare of North Carolina
- ▶ WellCare of North Carolina
- ▶ Eastern Band of Cherokee Indians (EBCI) Tribal Option**

All health plans offer the same basic Medicaid services. Each health plan has its own network of providers. Each health plan, including the EBCI Tribal Option, may also offer different added services to their members.

WHICH PLANS DOES HUGH CHATHAM ACCEPT?

Hugh Chatham Memorial Hospital and its affiliates are in-network for the following N.C. Medicaid plans.

- ▶ AmeriHealth Caritas of North Carolina
- ▶ Blue Cross and Blue Shield of North Carolina

I SIGNED UP FOR THE WRONG PLAN. WHAT DO I DO?

At Hugh Chatham, your health and well-being are our top priority. We want you to have the right plan and work with the right primary care provider. The good news is that you may sign up for a new plan and select a new primary care provider for any reason within 90 days of your initial enrollment date or until September 30. To sign up for a new plan, you should work with the N.C. Medicaid Enrollment Broker by phone, use the chat feature on the N.C. Medicaid website, or visit the N.C. Medicaid Managed Care mobile app. Please see the contact reference sheet below.

WHAT DO I DO IF MY SERVICES WERE DENIED?

At Hugh Chatham, your health and well-being are our top priority, and we want you to get the care you need. Under the new Medicaid Managed Care model, some services ordered by providers must now receive prior authorization from your health plan before services may be provided. Prior authorization is a process required by health plans to review the medication or service your provider prescribes. This helps your health plan decide if the medication or service is medically necessary and if it will be covered.

Patients have the right to appeal prior authorization denials. If you need help with filing an appeal, you may

reach out to your provider and your health plan for assistance.

The best and most efficient way for you to get answers regarding benefits and services is to reach out directly to your health plan. You can access a complete list of contact information for all N.C. Medicaid health plans on both the NCDHHS and Hugh Chatham website at www.hughchatham.org/resources.
